On behalf of the Board of Directors, coaches, and players, I would like to express our sincere gratitude for supporting Dedham Girls Softball League during 2019. After we've concluded the current season, we wanted to recognize the contributions of our sponsors that allow us to keep the registration fees low for the girls of Dedham.

The Dedham Girls Softball League was established in 2002. Our program educates the girls of our community with the knowledge of softball, exercise, socialization, fun, friendship and much more. Children from the age of five through the age of eighteen participate in The Dedham Girls Softball League. To continue providing the children of our community with a competitive program, we try to improve our program each year by hiring educated instructors to teach skill clinics for our players and coaches. All proceeds from our fundraising events are allocated to providing educational skill clinics for all the players in our program and to offset operational costs to the League.

Dedham is a wonderful community because of local and surrounding area businesses who support youth organizations and give back to their communities. We look forward to your continued support in the future to keep Dedham Girls Softball League a success.

Thank you again for your generosity.

Sincerely,

Bill Walsh
Maureen Stronach
